15th-16th October, 2024

1. About The Northcap University

Established in 1996, formerly known as ITM University, The NorthCap University (NCU) is a progressive multidisciplinary university located in the city-centre of Gurugram, Haryana. NCU operates multiple schools and departments in its state-of-the-art sustainable, tech-first, campus and hosts a diverse body of engineering & technology, management, liberal arts, law, applied sciences, business and media and entertainment students. NCU is a National Assessment and Accreditation Council (NAAC) Grade A accredited university that serves as a research as well as talent catalyst between students and industry. Guided by eminent academicians and industry leaders, it follows an immersive pedagogy to deliver undergraduate, postgraduate as well as doctoral programmes.

2. About the HACKUTSAV 1.0

The primary aim of Hackathon Hackउत्सव 2024 is to seamlessly integrate the spirit of innovation into the fabric of The NorthCap University and nurture a culture of technological advancement on a national scale. We aspire to create a Platform that serves as a catalyst for personal and professional development, where every student is not just a spectator but an active participant in their journey of growth. Through a carefully curated mix of Hackathon, events, workshops, and the unique Tech experience, we aim to provide a platform that nurtures creativity, critical thinking, and hands-on technical skills.

Objectives:

- Foster innovation and creativity in addressing community challenges.
- Develop practical and sustainable technological solutions.
- Encourage collaboration among participants from diverse backgrounds.
- Provide a platform for networking and skill development on a national level.

Our hackathon Hackउत्सव, unfolds through two vibrant segments, each a category hosting a blend of fun and learning activities. From exciting competitions to thought-provoking events, our hackathon promises an immersive experience for every tech enthusiast. These categories are:

- Hackathon
- IEEE TechX-NCU-Delhi

Hackathon: Hackathons focused on Sustainable Development Goals (SDGs) offer a fantastic opportunity to leverage creativity, technology, and innovation to address pressing global challenges. Here are some potential themes for a hackathon centred around 9 SDGs:

i. Zero Hunger (SDG 2) Good Health and Well-being (SDG 3):

- Develop solutions to reduce food waste and improve distribution efficiency.
- Create platforms connecting surplus food from restaurants and events to those in need.
- Design innovative agricultural technologies to enhance crop yields while minimizing resource usage.
- Build applications promoting mental health awareness and providing support resources.
- Develop wearable technology for remote health monitoring and early disease detection.
- Create platforms for sharing healthcare data to improve medical research and treatment outcomes.

ii. Quality Education (SDG 4):

- Develop interactive educational apps to make learning more engaging and accessible.
- Create platforms connecting volunteer tutors with students in underserved communities.
- Design tools to measure and improve educational outcomes in remote or marginalized areas.

iii. Clean Water and Clean Energy (SDG 6 & 7):

- Develop water purification technologies for areas with limited access to clean water.
- Create apps to track water usage and promote conservation practices.
- Design low-cost sanitation solutions for communities lacking proper facilities.
- Develop renewable energy monitoring and management systems.
- Create apps to promote energy efficiency and behaviour change.
- Design innovative solutions for decentralized energy generation in rural areas.

iv. Sustainable Cities and Communities (SDG 11) and Climate Action (SDG 13):

- Develop apps for efficient public transportation and urban mobility.
- Create platforms for sharing resources within local communities to reduce waste.
- Design smart city solutions for energy management, waste reduction, and traffic optimization.
- Develop tools for tracking and reducing carbon footprints at individual and organizational levels.
- Create apps to promote sustainable lifestyle choices and raise awareness about climate change.
- Design solutions for climate resilience and adaptation in vulnerable communities.

v. Peace, Justice and Strong Institutions and Partnerships for the Goals (SDG 16 & 17):

- Develop solutions that make legal resources and justice more accessible to all individuals, especially marginalized and vulnerable communities.
- Build solutions that help communities prevent and respond to violence, ensuring safer and more inclusive societies.
- Build tools that enhance the cyber resilience of institutions involved in global partnerships.
- Cybersecurity training platforms for organizations engaged in sustainable development.
