Report on Design Day 2024

Design Day: Showcasing Creativity & Innovation 🌟

Our B. Tech 1st semester students stole the spotlight on **Design Day** as they showcased incredible prototypes addressing real-world social problems! 💡 ✨

Through the immersive EDIPT methodology taught in their *Problem Solving and Design Thinking* course, they explored empathy, ideation, prototyping, and testing to create impactful solutions.

The top 2 teams from each class presented their incredible ideas, demonstrating empathy, innovation, and determination to make a difference. Design Day was a celebration of creativity, collaboration, and problem-solving skills.

💡 **Major Themes Explored**:
- Women inequality and menstrual support solutions.
- Reducing food wastage, social cause towards zero hunger
- Enhancing campus navigation for new students.
- Making daily commutes to university easier.

Kudos to our budding innovators for their passion and creativity, and heartfelt thanks to our faculty mentors for guiding them through this transformative journey! 🚀 👏

A huge shoutout to the organizers, **Dr. Vandana Khanna** and **Dr. Satnam Singh**, for orchestrating such a remarkable event. 🎉

Sincere appreciation to our esteemed judges — **Prof. Anjali Garg**, **Dr. Lokesh Choudhary**, and **Dr. Anu Tonk** — for their invaluable insights and encouragement. 🏆 ✨

A special note of gratitude to **Prof. Sharda Vashisth- HoD MDE**, for her guidance and inspiring presence during Design Day, which uplifted the spirits of both participants and organizers alike. 🙌 ✨
